MEMORANDUM FOR:

[REDACTED] told me that a meeting with [REDACTED] of the Office of Strategic Information raised the question of whether you had a responsibility in this field. I believe you not only have no responsibility but are prohibited from active participation in the control measures as such. I believe you do have a responsibility for advising on the impact of controls or the lack thereof, based on our experience and studies of foreign intelligence services. These thoughts are further spelled out in the attached paper.

LAWRENCE R. HOUSTON
General Counsel
